

CEMIX ORNAMENTAL SEALER

PENETRATING CLEAR WATERPROOFING SEALER

DESCRIPTION:

CEMIX ORNAMENTAL SEALER is a clear glossy finish water based eco friendly penetrating waterproofing sealer. It is non toxic and resists mould and lichen. It is based on silane modified nano particle size, self-cross linking hybrid technology and can be effectively used for impregnating and sealing a variety of garden ornaments, garden pots, bird baths, reconstituted stone & carved stone features and other porous garden objects. It has outstanding adhesion, penetrating and sealing properties on various substrates. The application does not produce any discolouration of the surface and is suitable for waterproofing and sealing a wide variety of absorbent surfaces and not suitable for very dense natural stone, especially marble and granite. It can also be used on timber decks, outdoor furniture, timber wall cladding and cured decorative water based coatings that do not show signs of chalking.

ADVANTAGES:

- Environmentally friendly green product
- Non toxic – can be used for Bird Baths
- Fast drying and a clear glossy finish
- Can be applied on damp or moist substrates
- Hybrid sealer – penetrates as well as coats
- Exhibits a high degree of stain resistance
- Chemically resistant
- UV stable – will not go yellow over time
- Weathering resistant
- Resistant to dirt pick up
- Kills and resists micro-organisms
- Simple application – spray bottle packaging

SURFACE PREPERATION:

Ideally this sealer should be applied on freshly cleaned surfaces. The surfaces should be water blasted and made clean, free from grease, loose particles, dirt, paint, curing compounds etc. Mould, lichen, moss or algae growth should be removed with a suitable treatment and washed with clean water.

APPLICATION:

Shake or stir thoroughly before use. Always test apply on an area first. CEMIX ORNAMENTAL SEALER should be applied without diluting in two coats to ensure complete coverage and saturation of the substrate. Apply straight from the spray pack and the sealer will dry in about 20mins at 25 deg C. On high absorbent surfaces, repeat or increase the rate of application until surface is completely saturated. Re-application at a later date is possible provided the substrate is clean. Depending upon the porosity of the substrate – a coverage of 5m² per litre should be achieved.

APPLICATION TEMP: 5°C - 30°C

PACKAGING: 1.2 Lts Spray Pack

PROPERTIES:

Type	Anionic, Silane Modified Dispersion
Appearance	Milky, translucent white emulsion
pH	7.5 to 9.0
Density @20C	1.06Kg/Lt
Odour	Acrylic
Flash point	Not applicable

Not classified as Dangerous Goods

CEMIX ORNAMENTAL SEALER is non-toxic and non-corrosive. If splashed into the eyes, wash eyes with copious amounts of clean water immediately and seek medical attention. If ingested, drink plenty of water and seek medical attention.

It is advisable to wear the appropriate safety equipment when spraying this product – goggles, respirator and gloves.

CLEANING: Spray or roller equipment should be washed out immediately after use with water.

STORAGE & SHELF LIFE: Twelve (12) months when stored in unopened, original containers. Storage area should be not exposed to extreme temperatures. Do not expose to direct sunlight in storage.

SAFETY, SPILLS AND LEAKS: Keep out of sewers and storm water and dispose off any leftover as trade waste in accordance with local authority guidelines.

Plastic containers can be recycled after a good rinse and thorough wash.
