

# ROOF & GUTTER WATERPROOFER

## FLEXIBLE RUBBER WATERPROOFING MEMBRANE

AVAILABLE SIZE: 2kg, 4kg, 10kg

SCAN FOR DETAILS

NOTE: Due to updates in progress, packaging may vary.

### DESCRIPTION:

CEMIX® ROOF & GUTTER WATERPROOFER is a grey, flexible rubber, UV resistant, waterproofing membrane, designed for use on a variety of surfaces in positive pressure applications.

### TYPICAL USES:

CEMIX® ROOF & GUTTER WATERPROOFER can be used as an exterior waterproofer on roofs and gutters, as well as cementitious, metal and timber surfaces. It can be used as a decorative, grey finish. Alternatively, it can be painted over.

### ADVANTAGES:

- Highly flexible
- UV stable
- Can withstand extreme weather conditions

### YIELD:

Varies according to the substrate condition. Approximately 2m<sup>2</sup> per litre of product at a bed thickness of 1.5mm. A minimum of two coats is recommended to achieve this bed thickness.

### PREPARATION:

The substrate should be free of dust, grease, wax, oil, dirt, loose plaster, laitance, curing compounds, paint and all other friable materials and contaminants likely to prevent bonding.

New concrete should be left with a wood float finish and sufficiently aged as per manufacturer recommendations.

All substrates should be structurally sound, securely fastened and properly supported to eliminate any movement that may cause cracking.

The substrate should be dry.

### APPLICATION:

1. Stir before use.
2. Apply to the surface generously and evenly, using a medium brush.
3. After a minimum of 4 hours, apply a second coat at right angles to the first coat.

Ensure a bed thickness of 1.5mm is achieved for two coats.

### DRYING & CURING:

Drying and curing time may vary depending on the substrate and climate. Drying time is approximately 4 hours. Curing time is approximately 7 days.

### CLEANING:

Clean tools with water immediately after use.

### STORAGE & SHELF LIFE:

Up to 12 months when stored in the original, unopened packaging, in a dry place at 23°C and 50% relative humidity.

### TECHNICAL DATA:

APPLICATION TEMP.	5°C - 30°C
APPEARANCE	Light grey liquid
POTABLE WATER	Suitable
HYDROSTATIC PRESSURE	Not Suitable

The data shown above reflects typical results based on laboratory testing under controlled conditions. Reasonable variations may occur on site.
