DETAILS

NOTE: Due to updates in progress, packaging may vary.

DESCRIPTION:

CEMIX OXIDE POWDER is a high-quality, colour-stable iron oxide, used in the production of coloured concretes, mortars and plaster mixes. It is manufactured to the highest of standards, ensuring vibrant colours are achieved. CEMIX OXIDE POWDER will not contribute to efflorescence.

TYPICAL USES:

CEMIX® OXIDE POWDER can be added to a mix to create a vibrant, coloured concrete or mortar.

YIELDS:

The following dose rates are the full recommended rates. For a lighter colour, use half the recommended dose. As colour intensity may vary depending on personal preference, test a small area before use to achieve the desired result.

CEMIX® Product	Oxide dose rate per bag
Multicrete 20kg	120g to 150g
Multicrete 25kg	150g to 190g
Multicrete 40kg	240g to 300g
Masonry Mortar Mix 20kg	200g to 260g
Masonry Mortar Mix 30kg	310g to 380g
Cemplaster 20kg	130g to 170g

MIXING:

Add CEMIX OXIDE POWDER and mix thoroughly into the concrete, mortar or plaster mix at the start of the mixing process.

CEMIX OXIDE POWDER can be used as a dry shake topping for concrete, trowelled into the freshly laid mix. This method may not produce a full depth of colour.

CLEANING:

Clean tools with water immediately after use.

STORAGE & SHELF LIFE:

Store locked up. Cemix Oxide Powder can be stored well sealed in its original bottle for a period of 36 months from date of manufacture.

DISPOSAL:

Dispose of contents/container to authorised hazardous or special waste collection point in accordance with any local regulation.

LIMITATIONS:

Any cement based product, with or without the addition of an oxide, may appear inconsistent in shade. Adding more oxide than recommended will not generally increase the depth of colour. Accurate measuring is essential as too much product can weaken the mix.

If your project requires Building Consent, please email info@cemix.co.nz about the suitability of this product before use.

Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
